

GIVE A DOG A TASTYBONE

**A DIRECTORY FULL OF OUR
FANTASTIC PET PRODUCTS**

**A BREED
APART**

ON A BEAUTIFUL, SUMMER'S DAY IN BUCKINGHAMSHIRE, ENGLAND BACK IN 2002, MYSELF AND MY WIFE WERE HAVING FUN PLAYING A FAR TOO COMPETITIVE GAME OF CROQUET WITH SOME GOOD FRIENDS.

WE ALL BECAME HIGHLY AMUSED AND THEN LATER RATHER FRUSTRATED AT THE CONSTANT ATTENTION THAT OUR DOGS WERE PAYING TO THE CROQUET BALLS.

THEY WOULD CHASE AFTER THE BALLS, PICK THEM UP AND TAKE THEM OFF TO ANOTHER PART OF THE GARDEN. HERE THEY HAPPILY, BUT UNSUCCESSFULLY, STARTED TRYING TO CHEW THEM UP.

THE CROQUET BALLS MORE THAN PASSED THE CHEW TEST THAT DAY AND ARE, TO THIS DAY, STILL INTACT.

IT IS A WELL KNOWN FACT THAT ALL DOGS LOVE TO CHEW. BUT WE HAD YET TO FIND ANYTHING SO FAR THAT SATISFIED OUR OWN DOG'S PASSION FOR CHEWING UNTIL THE CROQUET BALL MOMENT.

IT WAS AT THAT MOMENT THAT I STARTED TO WONDER IF IT WERE POSSIBLE TO CREATE A FLAVOURED CROQUET BALL AND THEN PRODUCE IT AS A DOG TOY, THUS CREATING THE PERFECT DOG CHEW ...AND THAT'S HOW THE TASTYBONE STORY BEGAN.

NYLON TASTYBONE TOY

PRODUCT DESCRIPTION

TastyBone™ has been tested on the most vigorous of chewers – it satisfies every bit of your dog's urge to gnaw and is packed with irresistible flavours. With every bite your dog's gums and teeth become stronger and healthier, protecting against infections, tooth loss and vets' fees... and with a TastyBone™ firmly gripped in its mouth, your dog won't be chewing up anything else either.

TastyBone™ is perfectly safe to ingest – small fragments will pass through your dog's system harmlessly. TastyBone™ can be washed in soap and water too, and because it's so tough, it lasts for ages and ages.

SAFETY ADVICE

Do not throw TastyBone™ for your dog to catch, the impact could injure their teeth. Replace TastyBone™ when it is small enough for your dog to swallow whole. As with all chew toys supervision is recommended.
